

1. Postgraduate Courses

The funding of University postgraduate courses comprises two elements, one is Central Government funds allocated through the Higher Education Funding Council for England / TTA, the other element is tuition fees paid by or on behalf of the student.

In respect of Postgraduate courses and Research registration, the basic full-time fee level payable by students classified for fees purposes as either Home or European Union (EU), is set by the Government. The Overseas fee is intended to reflect the full cost of the course; the University receives no additional Government funding in respect of such students.

Postgraduate fee levels have been set for each faculty as detailed on the following pages. Where an overseas fee is not directly quoted for part time course, the faculty office should be contacted.
