

JANET ROAMING

How to Configure Blackberry Bold

This document explains how to configure your Blackberry Bold to use the JANET Roaming Service (EDUROAM) at Kingston University.

INTRODUCTION

We apologise for the lack of flashy screenshots. Setting up your Blackberry is fairly straightforward using the configuration settings set out below.

Select Setup Wi-Fi Network | Scan for Networks

Select eduroam

Enter the following information

Security Type	PEAP
User name	<u>username@kingston.ac.uk</u>
User password:	password
CA certificate	GTE CyberTrust Global Root
Inner link security:	AUTO
Token	None selected
Server subject:	Blank
Server SAN:	Blank

Save the configuration and connect

Notes

We will document how to configure other phones and devices (e.g. iPhone) when they support the 802.1x protocol.
